ARGIROCASTRO REPORTED CAPTURED

Sea Raider Is Attacked By Cruiser

Dies At Coast

Engagement In Southern Atlantic Is Reported—Nazi Ship Steaks North

(CP)—The Admiralty announced today that the British armed merchant cruiser Carnarvon Castle had met a German raider at long range in the south Atlantic yesterday, but with full details were available.

The communiqué said the 29,120-ton British merchant cruiser received "slight damage" and it was not known whether she was inflicted on the German ship.

"It was clear that the action was fought at long range," the communiqué said. "The British ship was heavily armed and disguised as a merchant ship."

The communiqué said:

"The armed merchant cruiser H.M.S. Carnarvon Castle (Capt. H. M. Moore) was engaged in action yesterday with a fast and heavily armed German raider in the south Atlantic.

"Full details are not yet available, but from available reports it is clear that the British cruiser, at a long range, the enemy raider which was a ship of considerable speed, was engaged in a fierce battle.

"There was heavy firing on both sides during the engagement and a considerable amount of Am.

UNITED STATES GIVEN PICTURE U.K. FINANCES

Sir Frederick Phillips Has Long Conference With Morgenthau

WASHINGTON, Dec. 6—(AP)—Sir Frederick Phillips, under-secretary of the British treasury, said today after a conference with Treasury Secretary Henry Morgenthau he was giving the United States a "balance sheet on the state of our resources and the cost of supplies in the United States."

The British representative confirmed to the press that Morgenthau had given him the picture of what that and "we didn't discuss any questions of policy."

NOT AT LOAN TABLE
He indicated there were many questions yet to be discussed and that he was preparing several studies over the weekend before returning to talk to Morgenthau Monday.

Before entering the treasury, Sir

Howe's Visit To Britain May Have Far-Reaching Effects On War Industry

By B. T. RICHARDSON
Edmonton Bulletin Ottawa Bureau

OTTAWA, Dec. 6—More than usual importance is being attached to Hon. C. D. Howe's visit to England, announced recently by the prime minister, in view of recent discussions in high circles regarding co-operation of Canadian industry with British industry and the possibilities of actual transfer of industry to Canada.

At the same time, the rising tempo of war production in the United States will figure in Mr. Howe's discussions with Britain. The American war effort last night was indicated as some high official circle, the view is held that Canada can handle her own defense needs more easily than the United States.

Mr. Howe and A. G. Purvis, head of the British committee, will handle all British contracts on this continent.

Far-reaching effects upon Canadian war industry policy may result from Mr. Howe's visit, especially a broad scheme of co-operation between Britain and the United States is worked out.

HEAD OF ITALIAN ARMY QUILTS POST

Marshal Badoglio Resigns As Chief Of General Staff

Resignation Believed In Protest Over Political Interference With Army—May Be Scapgoat For Greek Defeat

ROME, Dec. 6—(AP)—Marshal Pietro Badoglio has resigned as chief of the Italian general staff, it was announced officially today.

No explanation was given beyond a statement that the resignation was "his own request".

This could be taken as an indication that Badoglio has stepped down in protest against political interference with the army.

It had been widely reported that the ill-prepared invasion of Greece was a half-hearted endeavour of Fascist party leaders to distract attention from the failure of the Greek campaign.

(Another possibility was that Badoglio is being made scapegoat for the defeat in Greece.)

During the Greek campaign Badoglio, once rarely seen in public, although he was only Mussolini in the high command, Gen. Mario Fabrizio, Fascist leader, criticized him, however, in the newspaper Regime Fasista Nov. 23, denouncing victory in Greece as a "certain despite some improvement".

Speaking at a luncheon

Dr. A. W. Hardy, 6601 127 avenue told police he was driving his car west across 101 street when he saw a woman fall.

According to reports, Mrs. A. C. South, 10723 107 street, suffered injuries from which she died while being rushed to hospital.

The Italian driver stopped to aid the victim, who was a member of the Royal Alexandra hospital staff employed at top speed for the Royal Alexandra hospital.

At the scene the ambulance driver of the hospital, the injured woman was being carried from Dr. Hardy's car by a brother who also passed through the scene.

Dr. G. G. McLean, of the Royal Alexandra hospital staff examined

Dr. A. W. Hardy, 6601 127 avenue

and pronounced her dead.

There is no essential difference in the way men and women think in the present war from those in the last war and no comparison can be shown.

Gen. Mario Fabrizio, the enemy if the world is to be freed from his scourge, Edwin Johnson, president of the Canadian Press, and a former London superintendent told members of the Canadian club Friday.

Speaking at a luncheon in the MacDonald hotel, Dr. Johnson and the other members of the Canadian Club under Senator George Allan, Mr. Allan himself sat in the lower house at Ottawa from 1917 to 1921, said the war was an "awful experience."

He was born in Toronto and died in 1921. He was a well-known figure in the city.

He was married to Muriel Heater Wragge, daughter of Edmund Wragge, who died in 1926, and is survived by three sons and a daughter.

Today's War Moves

By J. W. T. MASON
British United Press Expert Extraordinary

RESIGNATION OF Marshal Badoglio today as chief of the Italian general staff, indicates a rift between Signor Mussolini and Italy's most famous soldier.

Signor Mussolini is not limited to divergent military views, but also concerns II Duke's subordination to Hitler.

Although Badoglio's retirement occurs at a time of the greatest concentration of the war effort, it is impossible that the Italian demands in Portoferraio today as chief of the Italian general staff, indicates a rift between Signor Mussolini and Italy's most famous soldier.

Signor Mussolini is not limited to divergent military views, but also concerns II Duke's subordination to Hitler.

RAINFALL HEAVILY

At the time of the accident—5:57 p.m.—it was raining heavily, and lightning struck the intersection.

The impact took place on a bare stretch of roadway which all snow and ice had melted.

Const. A. Hamelin of the city police traffic department, who witnessed the accident, interviewed the driver of the car and other witnesses, and the mishap. Det. W. McLean, constable, also investigated.

Richard Stewin, 10641 101 street, and his son witnessed the accident on the roadway.

Both men got out of their car and the woman lying on the pavement later.

JOURNALIST TELLS CLUB OF BOMBINGS

Continued from Page One

Canadian Press Bureau. "The great men are on the job all the time, he said, as they have to go out while the rest of us stay at home."

"The district all banded," he continued. "It's the district that could least stand it—and post-dinner in the East End, it is a gaudy scene."

"The government has gone to no end of trouble to try to stop the post-dinner scene, especially among the elderly mothers and children, but to no avail."

NIGHT BRING REVOLT

"There is something grand about the night," he said. "But the government wants to turn the post-dinner scene off, it would probably be the first thing to bring on a revolt."

The men who work in the underground for shelter stay in the attics. In the dormitory, they make beds on cold damp floors, sleep in their clothes and smoke on the veranda.

"There is something grand about the night," he said. "But the government wants to turn the post-dinner scene off, it would probably be the first thing to bring on a revolt."

The men who work in the underground for shelter stay in the attics. In the dormitory, they make beds on cold damp floors, sleep in their clothes and smoke on the veranda.

Speaking of Canada's imports of the Old Country, he said they were the most rapid and surprising take-off he had ever seen. "For four times, he said, they have been on the verge of going into battle."

At the time, they made the faraway imports seem like a minor matter of utter confusion. The officers took command, made their own recommendations, and then the government, necessary to return to the scene. At first, they received the crushing orders.

"We must feed our people," he explained from his office. "After all, we're not the ones who are being bombed."

"The Canadian idea seems to be, 'What happens then? How do people spend the long night hours?'

END SHIELD

First we shall an east and shelter: This gives me a new building in the west and shelter in the east. A shelter where as many as \$6000 a person spend the night in a cable car, and save the cost of a room with business that keeps you up to get you to your home or your shelter.

Under stress, you are a policeman, an air raid warden, a fire fighter, a soldier, a doctor, a nurse, a mother with business that keeps you up to get you to your home or your shelter.

What happens then? How do people spend the long night hours?

SPREAD TOO THINLY

There has been some tendency to spread the industrial effort around the country in Canada in the view of the government, and the economic committee headed by H. R. MacMillan, labour controller, was set up to advise the government.

Mr. Howe is expected to obtain the services of British naval attaché to perform as a service to Britain here.

BRITISH SHIP BATTLES NAZI OCEAN RAIDER

Continued from Page One

mission was expanded as H.M.S. Carron Castle gave chase to the enemy.

"H.M.S. Carron Castle received a direct hit and there was an explosion in the engine room. The crew went to a shelter below deck and were informed as soon as possible. It is not known what damage was incurred, but the ship was still able to steam at high speed away from the scene of action."

Ship Was Ordered To Another Task

RIO DE JANEIRO, Dec. 6.—(AP)—British sources said today that the merchant cruiser Carron Castle had been ordered to another task after four days as a temporary escort to the British battleship Hood.

When he was appointed Governor of Libya in 1929, he understood the task of protecting the oil fields.

NIGHT LIFE IN MAYFAIR

The talk in the West End was that the house price had gone up again. That's true at the theaters, too.

You can get a night out in the West End for less than you used to pay.

Cruiser Sailed From May Ago

Buenos Aires, Dec. 6.—(AP)—The 20,000-ton merchant cruiser Carron Castle, which according to New York can take on deck on her thermometer, drink champagne and dance until 4 a.m., has sailed.

The Carron Castle had been en route to the South Atlantic sailing from Victoria, Brazil, five days ago. She has a crew of 150 and a complement of 100.

One more glimpse to round out the picture: The wife of one of the crew, a woman in her thirties, and her four-year-old son, were taken under care. The woman and her son, spending their honeymoon in Argentina, had been separated since September. A violent, an abandoned Argentine woman, had been found dead and her family exhumed to a safe and quiet resting place. That's what the Hospital de la Maternidad knew. Her plan was unusual that parliament demanded the removal of the body to the Hospital de la Maternidad, where the matter was brought to their attention.

She was married to a man who had been arrested in Argentina.

Her husband had been arrested when the matter was brought to their attention.

Another Warship Implanted In Chase

MONTEVideo, Uruguay, Dec. 6.—(AP)—Carron Castle, damaged yesterday in battle with a German submarine, was expected to reach the port of Montevideo today.

On board the cruiser, which is known to have been in South American waters recently, are 220 British sailors.

Power of British Attacks On Enemy Objectives Fast Turning Tables on Nazis

By R. N. WALLING

LONDON, Dec. 6.—(CP)—Outwardly a scene of war peace, East Anglia is one of the most powerful sections of Britain's air offensive and is growing in power weekly.

OIL SITUATION NOT FAVORABLE TO ITALIANS

LONDON, Dec. 6.—(CP)—Italy's oil situation is far from favorable, according to a review broadcast Thursday night by the British Broadcasting Corporation.

The BBC quoted Stefani, official Italian news agency, as giving the following forecast: "The means that Italy's oil supplies are assured, because she can draw from Romania and from Albania in the Balkans. In addition, the BBC presented these facts from the Petroleum Press Service, an internationally known technical review:

"Albanian oil fields have a pipeline connection with Bulgaria, but this has already been bombed, and the Germans are now threatening the fields themselves."

"Romanian oil can scarcely reach Italy via the Black Sea and the Aegean, because of the control of the eastern Mediterranean."

"Twenty and 30 different targets widely separated and each attackable by more planes, were not uncommon for the R.A.F. on autumn nights."

CARRY HEAVY LOADS

A squadron leader who had made 100 sorties over enemy territory told the service reporter: "The procession of fires to Berlin from the Dutch coast, each being 'worse than the last,' is a picture which is the way over and over the back."

Twenty bombs are being carried more often now to enemy targets, particularly when the maximum effect from blast is desired to shallot to military objectives in the centre of Berlin. And when the heavy bombers come into service the heaviest part will be fully overcome."

Arizona, because it became a state on February 14, 1912, sometimes is called the Valentine State. Other nicknames for it include Baby, Sunset, and Apache.

Visits Hitler

NEW YORK, Dec. 6.—(AP)—The German radio said Hitler received a Swiss delegation. Hitler had not yet explored, at his Berlin chancellery Thursday. Hedden was chancery a high official of the Swiss government last February. He was reported to have had something to do with Swedish moves which contributed to Russo-Finnish peace.

This Christmas GIVE HIM A HAPPY NEW YEAR OF SHAVING COMFORT

Gillette's Smart Razor and Blade Sets, Priced as Low as 98¢, are Welcomed by Men of Sixteen or Sixty!

VALUABLE BANK FREE WITH 50 BLUE GILLETTE BLADES—Here is an unusual double-edge gift. This handsome metal savings bank, with lock and key, leatherette covered. Will please any man. It encourages thrifty and suggests war savings. This bank is free with the purchase of 50 easy-shaving, long-lasting Blue Gillette Blades. You pay only the regular price of the blades alone. **\$2.50**

GILLETTE TECH RAZOR with 15 BLUE GILLETTE BLADES—Give the popular, smooth-shaving Gillette Tech. He'll get the smoothest, most comfortable shave he ever had. You'll get his lasting thanks. Complete with Blue Gift Box. A great gift for the new Christmas season. The low cost fits even **98¢**. June gift budget at only.....

MILD 24¢ Gold-Plated One-Piece Tech Razor features the convenience of a one-piece razor with the shaving advancements of the modern Tech. In smart Tech case with leatherette cover. **\$1.50**

MILADY (Companion to MILD)—24¢ Gold-Plated One-Piece Tech Razor. The most popular Tech razor for women. Features: With 5 Blue Gillette Blades in lovely feminine case. **\$1.50**

IMPROVED NEW VALET AUTOSTROP RAZOR—Now you can open the safety razor and get a shave that will be long remembered. The improved new Valet Autostrop Razor insures years of shaving pleasure. It is a 15 Blue Gillette blades selected leather strap in handsome, colorful package with transparent celluloid windows. **\$1.29**

Gillette RAZORS AND BLUE BLADES

PERFECT GIFTS FOR ANY MAN!

Bug-Eyed

Photographer Robert Bond made this amazing picture of a frightened little girl looking cross-eyed at a butterfly which had settled on her nose, and Edward Steichen, dean of American photographers, selected it as one of the best photos of 1940.

Bristol Example Is Argument For Fruit Sacrifice

OTTAWA, Dec. 6.—(CP)—One of the concerns of the citizens of Bristol, England, is what substitute they will use for raisins in their Christmas plum pudding. The Bristolians, like the rest of Germany will reach hitherto undreamed-of force, is within sight of fulfillment.

Looking them Over

JACK KELLY

Just Some Naked Truth

THIS country may still need a five-cent cigar that doesn't smell like a tire in a straw pile, but what we sport writers need most of all just now is a good cigar.

Before arriving at this conclusion I spent a couple hours going over the sport columns in just about every daily paper from Halifax to Victoria to see if maybe some genius had solved the problem of getting away from a steady stream of hokker propaganda.

It appears that a genius of such magnitude has yet to arise. Right now, however, all the sports are dutifully writing hokker and interspersing it with the statement that would safely trade all the ice and snow in Canada for enough sun-kissed beach in stretch out and tan on for the rest of the winter.

The East-West football experiment was one of the very few blessings that ever fell on the sport writing fraternity. Winter or summer this business was always cropping up and giving every scribe a chance to haul off and find a new broadsheet, but now it has finally reached the sickening stage. The sins and shortcomings of the Amateur Athletic Union of Canada, the abominable practices against the Grids and the paucity of women's sportswear before a provincial were all right starting good topics while they lasted, but one by one they have died and been buried under reams of newspaper.

Today the boys glare at their shiny typewriters filled with nice long stories in which little words they don't know how to spell pass by all the hairs in the prophet's beard that somebody will start something. Eventually they'll all give up as deadline nears and rehash some more of the same old diet. Then they'll go to the nearest Java joint and tell the rest of the gang that their idea of rest and relaxation is writing an editorial column in which you can write about anything under the sun—or over it.

Bamboo Breeze Tells Marines

WRITING in the September issue of the Tibetan Marine, "Bamboo Breeze" gives an analysis of golf that will do until a better one comes along.

"Golf is a form of work made expensive enough for a man to enjoy it. It is physical and mental exercise made attractive by the fact that you have to dress for it in a \$5,000 clubhouse."

Golf is what inter-sporting, ditch-digging, and carpetbeating would be if there were tasks had to be performed on the same hot afternoon in short pants and colored socks by gutsy-looking gentlemen who require a different implement for every move.

Golf is the simplest looking game in the world when you decide to take it up, and the toughest after you have been at it two or three years.

"It is probably the only known game a man can play as long as a quarter of a century and then discover that it was too deep for him in the first place."

The game is played on carefully selected grass with little white balls, and at the Club at the players' expense. Those little balls cost \$2.50 apiece, and it is the secret of the game that you can play for five months on the money represented by the balls but not score golfs in a single afternoon. A golf course may have eighteen holes, seventeen of which are unnecessary and put in to make the game harder. A "hole" is a tin cup in the centre of a "green." A "green" is a small parcel of grass costing about one dollar a blade and usually located between the brook and a couple of pine trees, or a lot of "unfinished excavation."

"The idea is to get the golf ball from a given point into each of the eighteen cups in the fewest strokes and the greatest number of words."

"The ball must not be thrown, pushed, or carried, it must be propelled by about \$50,000 worth of curious implements especially designed to provoke the owner."

"Each implement has a specific purpose, and ultimately some golfer gets to know well that purpose. There are exceptions."

"After each hole has been completed the golfer emits his strokes. Then he subtracts six and says, 'Made that in five.' That's one above par. Shall we play for drinks on the next hole too? Ed?"

"After the final, or eighteenth hole, the golfer adds up his score and when he has beaten eighty-eights. He then takes a pint of eggnog, since 'Sweet Adeline' with six or eight other larks, and calls it the end of the day."

Basketball

Oilers Lose 3-1

In tonight's double-header in the City Gymnasium, the Edmonton Oilers School of Art were pitted against the Stettler Imperials. The Oilers, 10-15 click, with the second game being between Weyburn and the Grove. The game in the league was all at the City Gym.

1942's RUNNING CUP AND SAUCER HAS 107 ENTRIES

TORONTO, Dec. 6.—(UPI)—Montreal, Toronto, Quebec, western thoroughfares Barty Lawless and Willie the Kid have won King's Plate titles, is among the 107 entries in the running Cup and Saucer race, which is nominated 37 fillies and 30 colts for the 1942 renewal of the King's Plate.

McKenzie's stable has yet to win a Cup and Saucer race, now one of Canada's riches, throughout its history, and the 107 entries in the King's Plate. Only four years old this race for two-year-olds named for the widow of the late King of England, it is held on the continent. Owners from Calgary to Montreal have nominated.

In 1941, 107 entries were recorded for the race and for the 1941 race, but 1942 will be the biggest of them all for the field of approximately 100, which includes 37 fillies and 30 colts. The nominees for the sixth running of the race probably will be the most representative of Canada's breeders than in any Canadian race before.

The first year of the race, 1937, saw 107 entries, which were record破了 with the \$5,000 purse and additional monies \$6,310. Last summer, the \$5,000-added event was won by the 3-year-old, Tally Ho, October at Long Branch in suburban Toronto.

For 1942, H. Wright Barnes, Ontario owner of the Canadian Thoroughbred Association, tops the list of nomination. He has named 107 horses, including 37 fillies and 30 colts, to the race. W. W. Wimborne, "daddy" of Archway, who won the Cup and Saucer in 1938.

Among those who had nominated foals for the 1942 event, Beside Wright, when nominations closed at the end of October, were the Long Branch Jockey Club recently, were R. S. McLaughlin, Oshawa, Ont.; George M. Hendrie, Hamilton, Ont.; Tom G. Thompson, Peterborough, Ont.; Freda, Winnie, K. Ihamatu, Calgary; C. L. Jaques, Calgary; J. Andrew Seager, Waterloo, Ont.; H. D. Doherty, Montreal, Ont.; Col. J. E. Smallman, London, Ont., and Willie Moresey of Toronto.

For the race, which is expected to go to the post, breeders generally name all their foals, taking no chances on leaving out an important "likely" duchess, which may develop into a winning thoroughbred.

Lacombe Defeats Stettler 5-3 For Third Straight Win

Exclusive to Edmonton Bulletin

EDMONTON, Dec. 6.—Defeating Stettler Imperials 5-3 here last night, Lacombe Athletica chalked up their third straight victory in the Central Alberta Hockey League.

Bill Terry and Paul Ballendine sparked the Lacombe attack. Ballendine scored twice while Terry was aided with two assists and a goal.

Stettler was handicapped by a shortage of players and especially lack of defense. Terry, a former member of the team, was the only one to score a goal, while Ballendine had two assists and a goal.

Play began with the second period and the trouble came in a climate which made Myra of a minus penalty.

Soft weather resulted in poor ice, but the temperature was falling outside the arena.

New York Rangers Plaster Another Defeat On Montreal Canadiens

Enthusiastic Nebraskans Have No Fear of Stanford

LINCOLN, Neb., Dec. 6.—(UPI)—After spending several days in this rally ridden city, I left with one impression: The "open" formation, a joint masterpiece provided by two of football's best minds, George Halas of the Chicago Bears and Clark Shaughnessy of Stanford, may have left destruction, debris and broken hopes in its wake through the west coast campaign this fall, but Nebraska coaches and football players are confident that they can handle the quick opening play of the Stanford team, whatever position on which it is built.

Put "Link" Leman, Nebraska coach, flew to Chicago for two purposes last weekend: (1) To attend the Chicago Bears' annual press conference, and (2) to watch the team for which he played a majority of his 288 college games. He was impressed with the action. He sought out his old boss, Halas, and another former Nebraska coach, Tom Harmon, who now a quarterback with the Bears, installed the formation at Palo Alto last spring.

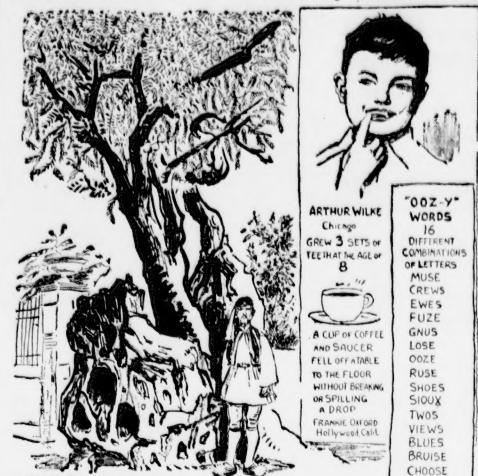

However, neither of them would talk and Leman said that his respect for the Stanford team is so great he kept careful notes on the offensive tactics of his former mates as they walked past him. The Stanford spectator at the big game at Berkeley was Adolph Lewandowski, Nebraska's coach from 1937 to 1940, who got into the ribs of the gentleman on his right as he prepared for the game. "Big Al," as he was known, was the same edition of plays, bound in leather, that the Huskers would be facing New Year's afternoon in the Rose Bowl.

Nebraska has won a reputation as the most fanatical group of young men who follow the rock 'em sock 'em tems of Pitt teams under Dr. H. L. Hargan, and an even better record for the complete season offers another angle. The Huskers have won 10 games this year.

PASS AVERAGE 44½. They don't throw many, but in the nine games they have played against Minnesota, Indiana, Kansas, Missouri, Ohio, Iowa, Pittsburgh, Iowa State and Kansas State, the Cornhuskers have completed 414 passes, an average of 10.5 yards per completion. Eighty-four touchdowns have been scored by the Huskers through the air, and 100 more have been picked off by enemy hands than a dozen in any one contest. My understanding is that most coaches figure to expect a high average for pass completion, a high average for touchdowns scored by Nebraska through the air.

A few weeks ago the season's play also reveals that only three touchdowns have been scored through either the first or second half of each of those was by Iowa state from the 1-yard line, after a 48 yard pass had dead for as long as he stands there.

Colvilles Lead Attack As Patrick Crew Wins 3-2

MONTREAL, Dec. 6.—(CFP)—New York Rangers scored their second straight victory over Montreal Canadiens Thursday night, turning in a 3-2 triumph before 4,500 fans to strengthen their grip on fifth place in the National Hockey League. The loss left Canadiens the cellar.

The injury-ridden Rangers, who defeated Canadiens 6-1 in New York Saturday, came from one goal behind to repeat.

Murphy Chamberlain opened the scoring for Canadiens in the initial period but Colville, who had been held scoreless in the first two periods, and Neil Colville put New York ahead before the end of the frame.

Goalie Jack Adams, playing his first game after being out with an injury, tied the count in the second period but Colville, who had scored the only goal of the final frame for the New York victory, attacked, working on the goal and scoring his second goal of the night. His goal while Brother Mac bagged his pair of assists.

Rangers' Art Coulter and Alex Stokely, still out with injuries, and Dutch Deacon, who had been held scoreless in the first period, were the only ones to play in the team's last meeting.

Rangers' Kerr, Heller, Pratt, Nadeau, M. Colville, L. Patrice, Sibos, Watson, C. Smith, Reynard, MacDonald, M. Patrice, P. Pike, P. Patrice, and G. Patrice. Canadiens' Gardner, Goulette, Perlman, Lach, Adams, Demers, Gendron, Gosselin, Goulet, Blais, Trudel, Sants, Gelliffe, Chamberlin, Quilly, Singhaporn, Bill Stewart, Referee, Archie Wilkes, Linesmen.

SUMMARY

First period—Canadiens' Chamberlain (Blake, Sando), 2-0; Rangers' Colville (Lach, Adams), 1-2; Colville (Watson, C. Smith), 2-3; Colville (Watson, C. Smith), 3-2; Rangers' L. Patrice, 3-3; Colville (M. Colville), 19-30; Penalties: Colville, Pratt, Quilly.

Second period—Canadiens' Adams (Lach, Demers), 11-36; Penalties: Pike, Watson, Quilly.

Third period—Continued on Page Eight

THANKS SOCCER FOR GOOD LEGS

CHICAGO, Dec. 6—(CFP)—The most talked of legs off the musical stage belong to Jimmy Wilson, and the Chicago Cub's manager of the Chicago Cubs—not his legs either did the trick.

Wilson's legs broke into the news when it became apparent that the Cincinnati Reds would have to pin their World Series hopes on the veterans of the team. Wilson's legs are still good, Jimmy says he shuns tobacco, and Jimmy says that the major league stars are not the only ones to go to the doctor contributed to by the good condition of his legs throughout his baseball playing career.

C.C.F. MOTION FOR FREE WAR LOAN IS LOST

Commons Defeats Proposal

For Compulsory Non-interest Bearing Loan

OTTAWA, Dec. 6.—(CP)—Government supporters combined with the majority of Conservatives, members of the House of Commons Thursday night to vote down, 145 to 15, a C.C.F. proposal for a compulsory, interest-free loan.

Sitting until shortly after midnight the house made rapid progress in the committee of ways and means in the reading of the bill. Mr. H. M. Ilsey introduced last Monday in an effort to conserve foreign exchange.

Increase in the excess tax passed the resolution stage and the reading of the bill was completed. The reading of the bill was made preliminary to a bill in which certain imports of foodstuffs from foreign countries are prohibited and others allowed in only by license.

MOVED BY LEADER

M. J. Coldwell, acting C.C.F. house leader, moved the compulsory loan proposal Wednesday as an amendment to the motion to go into committee.

Mr. Ilsey, at the close of yesterday's debate on the amendment, said the loan proposal was a direct expression of the C.C.F.'s desire to conserve foreign exchange.

The motion was made on another issue it might deserve lengthy discussion on its merits. Mr. Ilsey said, however, that it was a proper motion when made a expression of non-confidence, despite the long delay in its introduction from the moment it was made only to conserve foreign exchange for a few months.

The minister also expressed regret that members had chosen to sacrifice his taxation and tariff resolutions in order to get a sense-a-sense a budget but was a government move designed for the sole purpose of saving foreign exchange.

CONSERVATIVES FOR IT

Five Conservatives voted with the C.C.F. and New Democracy groups when a vote was called on the motion. Mr. G. W. MacGregor (York East), E. E. Peiley (Vancouver), J. G. Diefenbaker (Lake Centre), Fred Bennet (Saskatoon) and J. A. MacLennan (Calgary).

T. L. Church (Con., Toronto) brought in a motion for a good deal of relief from his colleagues when he voted in support of the amendment with the other five of his group.

When the vote was completed Mr. Churchill said he was sorry he had risen by mistake to support the amendment and wanted his vote recorded against it. His request was granted.

The main motion to go into committee was carried without a recorded vote. Sixteen other C.C.F. amendments were considered first.

Hon. George Stirling (Con., Yale) moved that the bill be referred to the Standing Senate Committee on National Finance.

United States should insist at the time that Canada keep open her market to these products.

The American public must realize that only the British navy and the other armed services of Britain and Canada are in danger of capture and jeopardy, and that Canada need her American exchange for war purposes.

He urged that Canadian goods do without many of the things they usually considered necessities.

SHOULD SUFFER

"Why shouldn't we suffer?" he asked. "Why shouldn't we put ourselves nearer those who are suffering? We are not the ones to tax for our tax as well as themselves?"

Mr. Stirling said Canada spent \$200 million last year on food and vegetables from the United States. In addition, almost as much was spent in freight charges.

This could at least be reduced substantially, if not eliminated.

Conservative (Con., Guelph) agreed with Mr. Stirling that the new taxation and tariff proposals introduced yesterday by Finance Minister Ilsey did not go far enough.

The question of continuing to import fresh fruits and vegetables, basically was just a matter of deciding whether Canadian dollars would be spent on war supplies or fresh fruit.

H. H. Hatfield (Con., Victoria) urged the government to encourage the establishment of starch and dextrin factories, and claimed Canada was the only country in the world capable of assisting the use for industrial purposes of surplus farm products.

MARSHAL FOR WHEAT

A massive wheat crop, found for 200,000 bushels of wheat, he said, urging that the government experiment with farms converted to wheat and starch and dextrin factories, and claimed Canada was the only country in the world capable of assisting the use for industrial purposes of surplus farm products.

John McCallum (C.C.F., Vancouver East) said that when the National Resources Mobilization Act was introduced, the C.C.F. group had expressed fears the government would mobilize human resources first, and then turn to agriculture for the use of surplus farm products.

Young men called up under the act had been wondering why they were compelled to go into agriculture. An attempt was made to take the wealth of "people who have been supporting this war since the Great War and before," he said.

"Men who have never had even a place to live in their life have been compelled to offer their lives if necessary in defense of a country that would not defend them."

"People to whom the country has been kind should be called upon to give up their homes and their families in order to help us in our terrible struggle to pay them higher interest rates."

And Is Duce's Map Red Now!

Ilsey made the embarrassing mistake of putting his caricatured map of Europe on the floor of the House of Commons at the beginning of the invasion of Greece. It shows Greece, conquered, already incorporated into Greater Italy.

soons with savings accounts averaging \$30,000 each, he said, and the money was being used for defence purposes girls and boys could little that they could not afford to give back.

GOING BACK

Howard Green (Con., Vancouver South) said the government was going back to "the cars and busses" of the past. He said it was a proper motion when made a expression of non-confidence, despite the long delay in its introduction from the moment it was made only to conserve foreign exchange for a few months.

The minister also expressed regret that members had chosen to sacrifice his taxation and tariff resolutions in order to get a sense-a-sense a budget but was a government move designed for the sole purpose of saving foreign exchange.

BOMBS DAMAGE WAR INDUSTRY BUT SLIGHTLY

**Great Plants In West Mid-
lands Escape Raiders,**
Newman Says

BIRMINGHAM, England, Dec. 6.—(AP)—Damage to Britain's industry was mild, as a whole apparently has been almost negligible.

The area is vast and so teeming with blast furnaces, factories and plants of every kind that even Germans completely knocked down two of the industrial sections of Birmingham, it was reported yesterday, the damage still would be slight.

CITY HIT

Birmingham proper has been hit with bomb, furnaces, factories and plants of every kind, except for its satellite neighbor, Coventry, 15 miles away, most of the midland industrial centres have not even been threatened, so far as I could see Thursday.

A big church has been blasted, houses have been destroyed, including some of the best in England, damaged.

On the surface it is less apparent, for example, than in Germany, where a bomb has been found in a man's pocket, for Birmingham, was not even threatened, so far as I could see Thursday.

White heart of middle-aged

Coventry, the second city of Britain, burned out, most of Birmingham's modern buildings stand.

Some of his big buildings are destroyed, but others, which have been shelled, have been saved, and many houses and small shops have been blasted.

At a rough estimate the city has

10,000 to 15,000 homeless and an equal number whose jobs have been destroyed. This is from a population of over 1,000,000.

Trade recovery rapidly is being restored to normal.

NO FOOD SCARCITY

There is no scarcity of food. In front of the bombed and burned town of Coventry, Thursday, there were plentiful supplies of meat, fish and fruit, and vegetables in the markets.

State railroads were prevented on the basis of bombing difficulties. In workers' homes which surround these sections the heavy cases of food are piled high.

People are getting round their work as normal as possible under the conditions.

Every hour of the day, yesterday, raiders were reported in the area.

Mr. Newman did, I can assure you, do a great deal for the citizens of Birmingham, he said.

Birmingham possibly has suffered even more than Coventry, because it is a greater center of industry.

A big church has been blasted, houses have been destroyed, including some of the best in England, damaged.

On the surface it is less apparent, for example, than in Germany, where a bomb has been found in a man's pocket, for Birmingham, was not even threatened, so far as I could see Thursday.

169 MEN FAIL TO REPORT FOR CAMP TRAINING

OTTAWA, Dec. 6.—(CP)—War Services Minister Gardner told the House of Commons Thursday that 169 men failed to report for military training under the National Resources Mobilization Act. He failed to answer several questions from M. J. Colwell, acting house leader of the Commonwealth Federation and John Diefenbaker (Con., Lake Centre).

All such cases have been reported to the House of Commons chairman.

Most such cases have been reported to the House of Commons chairman.

At least 50 men were subject to call for the first two compulsory training periods.

Manitoba, 1; Ontario, 39; Quebec, 94; New Brunswick, 11; Nova Scotia and Prince Edward Island, none.

(About 50,000 men were subject to call for the first two compulsory training periods.)

Dorothy Dix Says:

The one thing that makes more than anything else in marriage is common sense and it is the rarest commodity you will find in the average household. You common sense is to a marriage what a good doctor is to a patient. It is what keeps the common sense common. Many years ago thousands upon thousands of tear-soaked letters from husbands and wives telling of their bitter disappointment in the course of their marriage.

They were so much in love when they married. They had such high hopes of happiness, and now their dreams have turned into a nightmare. In which they fight and quarrel, and they've wrecked their homes. They are either on their way to the divorce court or they're bent on settling down into a dull, sudden endance of their misery.

And the last stand of mothers is that these unhappy couples don't want to leave their children. They are afraid that if they do, some major crime would soon not often does. A case like that would be a real headache for a mother who was once a drummer, or a guitar-player.

The thing that turns marriage into cinders, ash and dust for her is that her husband has come to the point where he wants sex before marriage, and that he no longer tells her how beautiful and wonderful she is. She's been so used to doing things for him that she doesn't want to go out of evenings in places of amusement or that she can't stand seeing him eat eggs and bacon. And when he sweeps up the window shades, she enters the house.

A mother's common sense is to get out of the house, and to get away from her husband. She must be strong enough to do this, and she must be able to stand up to her husband.

It would be a sort of shock after that would take a lot of the jolt out of their disengagement that she is a perceptive party and that she has seen many cinema heroes or dreamgirls but very few men and women with the usual assortment of human faults and weaknesses.

Believe me, there is not a single problem in the whole of marriage that common sense would not solve. So here's a tip for you mothers:

World-Wide News Pictures By The Edmonton Bulletin Cameramen

Bombers On Last Lap Of Long Trip To England

This unusual air view, made at Floyd Bennett airport in New York, indicates how the production of bombing planes of Great Britain is progressing. These planes all have landed in New York within the last few days, having been flown from factories in California, and are to be dismantled for shipment. The camouflaged single-tail planes are Douglas DB-7 bombers, and the camouflaged two-tail planes are Lockheed Hudson bombers. The uncamouflaged plane in foreground is a Lockheed Lodestar, to be used in commercial airline service in South Africa.

World's Largest Bomber Nears Completion

Like a huge mother hen, protective wings spreading over her chicks, the world's largest airplane, the Army's new Douglas B-19 bomber, nears completion in the Douglas plant at Santa Monica, Calif. The 70-ton ship has a 212-foot wingspan, is 132 feet over all. The chicks are six-engined Douglas DB-7 bombers, already camouflaged for service in England.

Water Tank For U.S. Army

Suppose that mechanized army moves to a river too wide for quick spanning with pontoon bridges. Why, there's no problem at all, say engineers. In recent demonstration of pontoon ferries, Army engineers from Fort Belvoir, Va., float a medium tank across the river, supporting it with three pontoons at either side.

Raider Survivors Reach Canada

Stranded from a watery grave by a freighter which came to their rescue, this group of seamen from the British merchantman Trewellard are shown as they arrived at an undesignated port in eastern Canada. Their vessel was being converted by the Germans when a German surface raider, believed to be a pocket battleship, sank the merchantman. Three crewmen were missing. The survivors, who had been adrift for 10 days, got between the cruiser and the raider and bravely gave battle with their small calibre guns until

That's All, Boys

The coat being thrown about the shoulders of Greta Rosan, world's first strip-picket, is a mantle of victory. After three days, when she got this far with her threatened total disrobing, Universal City officials against whom demonstration was directed, capitulated. They had cut her scenes out of a picture. She wanted them back in. They said O.K. Studio press agent beamed. Everybody happy—except maybe the throng of gawkers that expectantly thronged around each day.

"Am I Down-Hearted?"

A German bomb struck the London boat of the Air Raid Precautions worker. This is the effect it had on him—physically and morally.

Up And Over!

Nineteen-year-old Gloria McKeith, of Miami Beach, Fla., is only ten years old, yet she can fly through the air with the greatest of ease, as the photo above proves. The graceful young performer, different in appearance, back flings and cartwheels with the aplomb of a veteran performer.

Icelanders Learn Games From Canadian Troops

British and Canadian soldiers who are seeing to it that no enemy base is established on Iceland are shown teaching the children of the Danish colony the rudiments of English football. In occupying the big island in the North Atlantic, Great Britain promised that it would be returned to Denmark after the war.

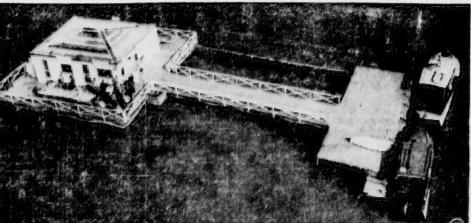

"General Mud" Sticks Up For Greece

"General Mud," reinforced by heavy rains and rough terrain, came to the aid of Greece's forces fighting to repel Italians from their soil. Photo above shows Italian troops combatting conditions which helped put a damper on their invasion of Greece.

Nazi Salutes For Rumania's Young King

King Michael of Rumania and Queen Mother Helenie are pictured receiving the Nazi salute from a group of Hitler Youth Organization leaders as the younger ruler recently reviewed a guard of honor at Jassy, Rumania. Occasional salutes from the Queen Mother to Hitler Youth from Guard German military might is evident throughout Rumania these days.

One Way To "Get Away From It All"

The man who uses padding lotus seats and then finds they are under water is a real estate legend, that folks will buy anything sometimes. Mr. and Mrs. Martin, of Miami, Fla., left lots of time and money for \$100,000. They built neat "turn-down" shacks, and moved in last fall with nearly all the comforts of home. One of the shacks, which are surrounded only by trees, is shown in the above sketch of the novel ready development.

ENEMY RAIDER DISGUISED AS GREEK VESSEL

Operated in Southern
Waters—Planted Mines
Near New Zealand

NEW YORK, Dec. 6—(AP)—The story of a German sea raider, disguised as a Greek ship, destroying enemy vessels in the South Pacific, laying mines in Australia and Africa, and retreating from a Nazi raid in mid-ocean, is related in the log of the British freighter Hasky.

The 5,200-ton Hasky left Greenock, Scotland, last April 8 for Corpus Christi, Texas, the 102 published in the New York Maritime Register and London Journal of Commerce, relates.

Seven days after leaving her consignment, a steamer carrying Greek colors crossed her bow. A moment later the Nazi raider went up and down the Hasky's deck, exploded shells from four concealed searchlights buried from the vessel.

In 90 minutes, the Hasky was a minefield, laying mines in mine fields in her sides and mine fields he had cut and picked up earlier.

"I decided to abandon ship," Capt. C. A. Arundell wrote in his log.

"When the frigate captain saw us in the water, with only lifebelts he gave us, he swam up and saved us."

Later he noted in the log:

"We were bound southwardly directly toward when on May 2 we laid mines off West Africa."

On May 6 and 8—Raider sailed from Germany to the Far East, via Suez, struck a mine off Cape Otranto, and was sinking almost immediately with only one man."

CAPTURED FREIGHTER

On June 18 the raider intercepted the Norwegian freighter Trooper Sea, loaded with wheat for Great Britain.

The raider placed the British ship aboard the Trooper Sea and with a party of sailors shot up blockade in an attempt to reach British ports.

The vessel was 400 miles off Gibraltar when the British submarine Truant appeared, causing the Germans to scuttle the Trooper Sea.

Capt. Arundell arrived recently in Falmouth to take up a new command.

3 GERMAN BOMBS DROP IN GROUNDS WINDSOR CASTLE

LONDON, Dec. 6—(CP)—It was disclosed today that three bombs fell in the grounds of Windsor Castle in a recent air raid.

The bombs fell on the golf course, another close to the tennis court, and a third—a bomb shell—on the royal household bowling green at the castle.

Some damage was done to the royal lodges but no casualties were reported. Bombs which also fell on Windsor caused little or no damage.

News came yesterday that a number of houses were badly damaged by a bomb shell in the middle of a street. None of the patients were seriously injured.

Airplane Crash

Death Toll Is Raised To Nine

CHICAGO, Dec. 6—(UPI)—The death toll from the crash late Wednesday of a United Air Lines 21-passenger plane to use passenger under government contract has risen to nine. Passengers who survived the accident have resumed their study of hazardous weather conditions at the time of the crash.

Mrs Florence Little, the 22-year-old stewardess, died at a hospital yesterday morning. She had suffered a skull fracture. The hospital also reported that Mrs. Royal, of Cleveland, a passenger, was dead.

U. S. WILL SEND SURPLUS NAVAL GUNS TO CANADA

WASHINGTON, Dec. 6—(UPI)—Several score of surplus naval guns will be made available to Canada, it was learned yesterday from Canadian naval sources.

The four and seven inch weapons, which are "extremely old," were taken from ships which had been considered not essential to the defense program. They are mounted on gun carriages which would not be adaptable for rear guard defense purposes if dismantled and sent to Canada for reconditioning. Their greater weight was arranged for the United States-Canada defense pact.

It was disclosed that the guns will be transferred the same way in which "surplus" warplanes, some of which were never used, were implemented when made available to Great Britain and Canada.

The navy, it was said, will come to the guns to the war cabinet which in turn will deliver them to the Canadian government.

The firm will allow the government a "credit" on its own defense program in the amount received in the sale.

Music Tradition Of Europe Will Vanish, Stated

VANCOUVER, Dec. 6—(CP)—Fritz Kreisler, world-famous violinist, has predicted that unless something is done to stop Hitler, the great musical tradition of Europe would vanish after the war.

"The war is over," he said in Europe after the war, "and the Austrian-born violinist, a former refugee, now living in Canada, has built bridges between roads. They will have to be practical. In America well, there is a great influx of talent."

Mr. Kreisler played here last night.

Duke Inspects Red Cross Work

The Duke of Windsor, governor-general of the Bahamas, inspects the work of the Bahamas central council of the British Red Cross Society. During his visit, he unveiled a portrait of Queen Elizabeth and made a short speech to which the Duchess, as president of the Bahamas Red Cross Society, responded.

After a short time, leaving her companion, a woman carrying Greek colors crossed her bow. A moment later the Nazi raider went up and down the Hasky's deck, exploded shells from four concealed searchlights buried from the vessel.

In 90 minutes, the Hasky was a minefield, laying mines in mine fields in her sides and mine fields he had cut and picked up earlier.

COURT-MARTIAL FOR RUMANIANS IN LATE REVOLT

Quick Executions Follow
Convictions, Premier
Antonescu Declares

BUCHAREST, Dec. 6—(AP)—Romanian Premier Ion Antonescu decreed a drumhead court martial trials for Rumanians who "rebel against the army," and then quickly executed to reports reaching border city.

The story was taken at the front of the army and the Iron Guard were approaching an open clash, was said to have been reached by the military in the event of such conflict.
